

THE ULTIMATE SUMMER

Bucket List

PLANNER

How does this work?

First of all, welcome to your summer of fun, adventure and pure awesomeness!

Secondly, let this be a fun practice to really let yourself dream and come up with all the magic you want to create this summer. Let yourself dream big, small or anything in between. And ENJOY!

ABOUT ME

Hi! I'm Lisa, a wanna be adventurer who is trying always challenging my comfort zone. I love using this workbook to make the most of my adventuring seasons.

Follow me on Instagram as I will be chronicling my Summer Bucket List adventures!

We are going to start by doing a simple brain dump. Challenge yourself to come up with as many things you want to do as possible. Put everything down, don't censor yourself. Then comes the fun part of deciding what to do!

I have included some pages to help you create your list based on a few types of activities. This is by no means the only things you can do, but hopefully they spark some creativity in what you want to do. But allow yourself to customize your sheets however you like.

There is even a plain old blank bucket list sheet, if that works best for you. And most importantly, a page for you to list all the amazing things you actually do!

Most importantly, HAVE FUN!!

Lisa Thruston
